# HAPI Bring Your Own Contract (BYOC)

Automated multi-posting that works with your customers' existing job board contracts, all from within the ATS.

HAPI BYOC is ideal for employers who:

- Already have job board contracts in place.
- Need to post jobs at scale (e.g., high volume, multi-location, recurring roles).
- Advertise through government or niche channels.
- Want automation and simplicity in their job distribution.

Understanding the customer challenges and providing solutions

Customer Challenge	How HAPI BYOC Helps	Customer Benefits
"We're overwhelmed and need more automation."	• Fully integrated into your ATS • Use existing contracts alongside free/government channels and Marketplace purchases • Auto-refresh jobs until filled • Centralized analytics and dashboards	✔ No extra tools to learn ✔ Save time with automated distribution (AI-prefilling) ✔ One-click multi-posting across all preferred boards ✔ Full control via real-time ATS dashboards
"We're struggling to fill high volumes of roles quickly."	• Instant multi-posting via own inventory • Track performance across channels • Detailed reporting inside ATS • Bulk Distribution	✔ Maximize candidate reach ✔ Post once, appear everywhere ✔ No missed deadlines ✔ See what works and adapt fast
"We need one system to manage everything."	• All-in-one solution within the ATS • Combine existing contracts with Marketplace • Consolidated analytics • Single monthly invoice	✔ Fewer vendors to manage ✔ No switching between platforms ✔ Leverage existing discounts ✔ One invoice, happy finance team!

Why Your Customers Will Want HAPI Bring Your Own Contract

Multi-posting:
Use existing contracts to distribute ads across all preferred job boards in one go.

Smart Reporting:
Track performance across all boards and jobs, directly from the ATS.

Flexible Posting Options:
Combine existing contracts with single purchases in the job board marketplace.

One Invoice:
All costs consolidated, less admin, more efficiency.
